(INCLUDING TRANSFER OF FUNDS)

The bill provides \$9,553,200,000 for Diplomatic and Consular Affairs (D&CP), of which \$1,560,700,000 is for Worldwide Security Protection.

The Secretary of State is directed to continue in fiscal year 2011 the semi-annual reporting requirement on the hiring, training, and deploying of new staff described under this heading in the explanatory statement accompanying the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2010 (division F of Public Law 111-117).

Within the amount provided, funds may be used to address urgent renovation requirements for the Blair House, following consultation with the Committees on Appropriations.

The bill does not include the budget request for the Foreign Affairs Security Training Center. The Secretary of State is directed

to submit a report to the Committees on Appropriations not later than 60 days after selection of the location site for the Center including the estimated completion cost of the project; prioritization, cost, timeline, and description of the phases; and a cost-benefit analysis comparing the 10-year costs for the training from leased facilities with the 10-year costs for training at the Center, including the cost of constructing the new facility.

The bill provides \$2,000,000 for training, equipment and other support for the Bureau for Democracy, Human Rights, and Labor (DRL) and at United States missions to conduct vetting of units and individuals of foreign security forces, consistent with section 620M of the Foreign Assistance Act of 1961, as amended by this Act. The Committees on Appropriations direct the Department of State to ensure that Human Rights Officers at United States missions shall be individuals with appropriate specialized training and experience to effectively carry out the responsibilities of the position, and that DRL be consulted on such appointments.

The bill includes the budget request for cyber-security. In addition, the Secretary of State is directed, in coordination with the USAID Administrator, to consult with the Committees on Appropriations not later than 60 days after enactment of this Act on the cost-benefit and performance implications of further consolidation of the information technology platforms of the two agencies at the country level.

The Secretary of State should expand support of the Special Coordinator for Tibetan Issues and fill existing staff positions to enable the Special Coordinator to carry out the broad responsibilities detailed in section 621(d) of Public Law 107-228, as well as for convening coordinating meetings for appropriate United States Government agencies, nongovernmental organizations (NGOs), and representatives of the Tibetan leadership.

Section 7034(u) directs the Secretary of State to conduct a pilot program to recruit, hire, and train up to 25 mid-career professionals for the Foreign Service to help address the projected future shortfall of mid-career Foreign Service Officers, which shall be carried out after consultation with the Committees on Appropriations.

The bill provides \$1,760,900,000 to support the transition from a military to civilian United States presence in Iraq, including \$25,000,000 of the \$50,000,000 that was requested by the Department of State for transfer from the International Narcotics Control and Law Enforcement (INCLE) account. The bill does not include the requested transfer authority from INCLE to D&CP.

The bill provides \$334,000,000 to offset the loss of assumed revenue from expanded consular fee retention authority.

The bill includes funds for the requested new positions related to Department of State operations and programs in Afghanistan, Pakistan and Iraq.

The Secretary of State is urged to continue support for the educational partnerships developed between the Department of State and community colleges and universities that focus on recruiting and preparing students from institutions with large minority populations for positions in the Foreign Service and for the Office of Science and Technology Advisor’s science fellowship programs. In addition, the Secretary should ensure that United States small, minority-owned, and disadvantaged business enterprises are able to fully participate in the provision of goods and services for the Department of State.

The Office of Public Diplomacy and Public Affairs is encouraged to continue funding for

new media programming for targeted Arabic language television programs, as specified in Senate Report 111-237.

The Secretary is directed to submit a report on implementation and progress toward achieving each of the sustainability goals and targets applicable to all United States Government agencies, as specified in Executive Order 13514.

The efforts undertaken by the Office of Global Women’s Issues to integrate gender considerations into all programs should continue with full consultation with, and support of, the Office of the Director of Foreign Assistance and USAID.

The Department of State is expected to work to increase consultations between the United Nations (UN) and New York City officials, to ensure local codes, regulations and security requirements are taken into account in any renovation or construction of facilities.

The Department of State shall follow the directive related to property inventory in Senate Report 111-237.

Not later than 180 days after enactment of this Act, the Secretary of State, in consultation with the USAID Administrator, shall submit a report to the Committees on Appropriations on the number of private security contractors serving at United States missions in Iraq and Afghanistan, including: the cost and duties of such contractors; existing oversight mechanisms and the number of Department of State and USAID personnel, as appropriate, conducting such oversight; and a cost-benefit analysis of replacing such contractors with United States Government personnel.

The bill provides \$8,356,000 under this heading to support the establishment of new American Centers. In addition, \$6,000,000 is provided under the Embassy Security, Construction, and Maintenance (ESCM) heading for related construction and renovation costs. Funds in this account are allocated, unless otherwise noted, according to the following table, and are subject to the provisions of section 7019 of this Act:

CIVILIAN STABILIZATION INITIATIVE

The bill provides \$35,000,000 for Civilian Stabilization Initiative (CSI) in this title. In addition, \$15,000,000 is provided under the same heading in title II of the bill, for a total of \$50,000,000 for the CSI in fiscal year 2011.

The Committees on Appropriations believe the CSI has potential as a mechanism for responding to international crises, but it remains a work in progress and has yet to demonstrate that it is effective. Given that the Quadrennial Diplomacy and Development Review (QDDR) has not been finalized and submitted to the Congress, the Secretary of State is directed to pursue a minimal stand up and implementation plan for CSI in fiscal year 2011 and support no more than a total of 170 Civilian Response Corps active personnel. The fiscal year 2011 plan to increase the number of stand-by corps from 1,030 to 2,000 is unsustainable. The Secretary of State is directed to consult with the Committees on Appropriations prior to implementing any reforms of CSI that may be proposed in the QDDR, including the establishment of a new office or bureau, which is subject to the limitations of section 7015(a) of this Act.

Not later than 6 months after enactment of this Act, and after a comprehensive review of the activities of the Office of the Coordinator for Reconstruction and Stabilization, the Secretary of State shall submit a report to the Committees on Appropriations detailing a refined and more focused mission for this office, including clarification of its role in international crisis response; changes in staffing levels required to meet its mission; budget modifications, as appropriate; lessons learned since its inception; and the mechanisms that have been established to ensure coordination with other crisis response capabilities of the United States Government, particularly USAID and the Department of Defense. Until the report is submitted, the Secretary is directed to freeze hiring of new active and standby Civilian Response Corps personnel.

OFFICE OF INSPECTOR GENERAL

The bill provides \$115,000,000 for Office of Inspector General (OIG) under this heading, of which \$22,000,000 is for the Special Inspector General for Iraq Reconstruction (SIGIR) and \$30,287,000 is for the Special Inspector General for Afghanistan Reconstruction (SIGAR). In addition, the Supplemental Appropriations Act, 2010 (Public Law 111-212) included \$7,200,000 for SIGAR for fiscal year 2011 and section 7071(a)(4)(B) of this bill provides \$1,500,000 by transfer to both the SIGAR and the OIG for enhanced oversight of assistance for Afghanistan, making a total of \$38,987,000 available for the SIGAR and \$64,213,000 for the OIG in fiscal year 2011.

The Committees on Appropriations recognize the valuable presence of the OIG's Middle East Regional Office, and direct that it remain an independent office, report directly to the Inspector General, and continue conducting evaluations in the Middle East region. In addition, the activities undertaken by the OIG are distinct from SIGAR and SIGIR and should continue in Iraq and Afghanistan.

EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

The bill provides \$654,200,000 for Educational and Cultural Exchange Programs, of which \$13,500,000 is for expanded exchange and English language programs requested under the Economic Support Fund (ESF) heading for the Global Engagement initiative. The Department of State shall follow the directive in Senate Report 111-237 regarding proposed reallocations to Pakistan and other Muslim-majority countries.

Any proposal for the programmatic and geographic distribution of available resources (including unobligated balances and recoveries) shall be submitted through the normal reprogramming process not later than 60 days after enactment of this Act. The overall funding distribution shall conform to the programmatic guidance included in this statement. Such plan should detail, by country, the amount allocated for Global Engagement initiative activities.

The bill provides funding to continue each of the programs referenced in the first paragraph following the table under this heading in the explanatory statement accompanying the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2010 (division F of Public Law 111-117).

The bill provides \$8,500,000 to continue the One-time Competitive Grants Program. This program shall be only for the actual exchange of people, should follow the criteria established under this heading in the explanatory statement accompanying the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2008 (division J of Public Law 110-161), and should benefit a population that is not being addressed through existing exchange programs.

The Department of State should consider proposals from the following organizations, in addition to those listed under the One-time International Exchange Grant Program heading in Senate Report 111-237, which shall be considered in full and open competition, and in accordance with all applicable rules and regulations: Santa Clara University; South Africa Washington Internship Program; Spelman College; Washington Ireland Program; and World Youth Peace Summit. The Department is also encouraged to continue funding the exchange programs listed in the fourth and fifth paragraphs under the heading in House Report 111-187, continue to support exchange programs and activities in the visual and performing arts, and consider funding for the OneWorld 2011 conference bringing together representatives from the United States and several Muslim-majority countries.

Sec. 7080. Transparency, Accountability and Anti-Kleptocracy.

The Department of the Treasury is directed to continue to provide the report to the Committees on Appropriations related to the International Monetary Fund's (IMF) New Arrangements to Borrow as outlined in section 7090(d) of the Department of State, Foreign Operations and Related Programs Appropriations Act, 2010 (Public Law 111-117).

The Secretary of the Treasury is directed to provide a report to the Committees on Appropriations within 30 days after the Board of Executive Directors of the IMF approves a loan for a country where the amount of the net public debt of the country exceeds 60 percent of the gross domestic product and the country is not eligible for assistance from the International Development Association, outlining the likelihood that the loan will be repaid. The report should also describe the borrowing country's current debt status, including to the extent possible, its maturity structure, whether it has fixed or floating rates, whether it is indexed, and by whom it

is held; the borrowing country's external and internal vulnerabilities that could potentially affect its ability to repay; and the borrowing country's debt management strategy.

The bill limits assistance to the central government of countries that do not fully disclose their national budget and government contracts and licenses for natural resource exploitation. If the Secretary of State waives this requirement, the Department of State is required to provide a report to the Committees on Appropriations that includes current data on the country's budget transparency; identifies any steps taken by such government to publicly disclose its national budget which are additional to those which were undertaken in previous fiscal years; includes recommendations of short- and long-term steps that the government can take to improve budget transparency; and identifies benchmarks for measuring progress in countries that receive a waiver.

Sec. 7082. Buying Power Maintenance, International Organizations.

This provision establishes a Buying Power Maintenance account under the Contributions to International Organizations heading to enable the Department of State to offset adverse fluctuations in foreign currency exchange rates related to United States assessed contributions to international organizations. While the Committees on Appropriations recognize the budgeting challenges related to exchange rate fluctuations, the Secretary of State is directed to continue to utilize funding that remains available after paying the annual assessed contributions to continue to synchronize contributions in the fiscal year in which they are due. The Secretary is also directed to report to the Committees on Appropriations by October 30, 2011, on the total amount transferred into the Buying Power Maintenance account in

fiscal year 2011 and the sources of this funding.

Sec. 7088. Inspectors General Personnel.

The Inspectors General of the Department of State and USAID should not exercise the waiver authority in this section for annuitants who have been retired for seven years or more, except in exceptional circumstances.

DISCLOSURE OF EARMARKS AND
CONGRESSIONALLY DIRECTED SPENDING ITEMS

Pursuant to clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, neither this division nor its accompanying explanatory statement contains any congressional earmarks, congressionally directed spending items, limited tax benefits or limited tariff benefits as defined in the applicable House or Senate rules.
